

IMAGE PROCESSING

Define The Parameters /Arguments For ImageDataGenerator Class

Date:08 november 2022

Team ID:PNT2022TMID50335

Project Name:Emerging Methods For Early Dectection Of Forest Fire

```
import keras
from keras.preprocessing.image import ImageDataGenerator

train_datagen= ImageDataGenerator(rescale= 1./255,shear_range = 0.2,
rotation_range=180,zoom_range=0.2,horizontal_flip= True)
test_datagen=ImageDataGenerator(rescale=1./255)
```
